H*

36. (Amended) A photographing apparatus as claimed in claim 35,  
wherein the information recorded on the first recording medium is information used when the still picture recorded on the first recording medium is printed.

37. (Amended) A photographing apparatus as claimed in claim 35,  
wherein, in any of the modes in which the moving picture is recorded, an aspect  
ratio of the picture can be varied.

38. (Amended) A photographing apparatus as claimed in claim 35, further  
comprising:

a display for displaying the still picture, the moving picture, or information in any  
of the reproducing modes.

39. (Amended) A photographic apparatus comprising:  
a recording section capable of recording, on a recording medium, moving pictures  
and also pictures to be reproduced as still pictures;  
a mode selector for selecting among a plurality of shooting and reproducing modes,  
said shooting modes including a mode in which the moving picture is recorded on the  
recording medium and a mode in which the picture to be reproduced as the still picture is  
recorded on the recording medium, said reproducing modes include a mode in which the  
moving picture recorded on the recording medium is reproduced, a mode in which the  
picture recorded on the recording medium so as to be reproduced as the still picture is  
reproduced, and a mode in which the still picture is reproduced out of the picture recorded  
as the moving picture on the recording medium; and  
an aspect ratio selector for varying, in any of the modes in which the moving  
picture is recorded, an aspect ratio of the picture.

40. (Amended) A photographing apparatus as claimed in claim 39, further comprising:

a display for displaying the still picture or the moving picture in any of the reproducing modes.

*Subj* 41. (Amended) A photographic apparatus comprising:

a recording section capable of recording, on a recording medium, moving pictures and still pictures;

a mode selector for selecting among a plurality of shooting and reproducing modes, said shooting modes including a mode in which the moving picture is recorded on the recording medium and a mode in which the still picture is recorded on the recording medium, said reproducing modes include a mode in which the moving picture recorded on the recording medium is reproduced, a mode in which the still picture recorded on the recording medium is reproduced, and a mode in which the still picture is reproduced out of the picture recorded as the moving picture on the recording medium; and

an aspect ratio selector for varying, in any of the modes in which the moving picture is recorded, an aspect ratio of the picture.

*Subj H* 42. (Amended) A photographing apparatus as claimed in claim 41, further comprising:

a display for displaying the still picture or the moving picture in any of the reproducing modes.
